

# Careers Support available Shireland Biomedical UTC 24/25

## Vision Statement

The intent of the career's curriculum at Shireland Biomedical UTC is to ensure that all students from years 7-13 are provided with clear opportunities to prepare them for their transition from school into the world of work. Shireland Biomedical UC intends to raise their aspirations, improve social mobility and increase their knowledge of the labour market. The careers curriculum will allow students to meet with employers, workplaces, further and higher education providers throughout their time with us.
